One Day On Our Blue Planet . . . In The Antarctic

Synopsis

From breakfast to dinner, dusk to dawn, children will love spending the day with this curious penguin chick. In the latest volume of Ella Bailey's picture book exploration of the daily lives of baby animals, we head to the ice shelf to meet a young penguin chick. What does she and her family eat? How many brothers and sisters does she have? What do they do for fun? Ella Bailey is an illustrator and writer who graduated from Falmouth University. She lives in Nottingham, where she spends her days drawing every animal she can think of.

Age Range: 3 - 7 years

Grade Level: Preschool - 2

Customer Reviews

Beautifully rendered narrative introduction to the wildlife of the Antarctic from the perspective of an Adelie penguin chick. Sweet and sensitively told in a way that a young audience can easily understand this complex ecosystem through a day in the life of one of its keystone species. It's also a great bedtime read! Highly recommended! My kids love it! The endpapers where you get to spot and name all of the creatures of the southern ocean are a particular favourite.
