Customer Reviews

I am not too pleased with this book as I wanted a full-size handwriting book (to use for homeschooling). Although we will use this book, it is not that. It is small. (Yes, it was my fault for not noting the size when I ordered.) It is really more of a "homework helper" as the title suggests. You could use it well "in addition" to your main course of handwriting. For example, if your child is in school and just needs A LITTLE extra practice, this book would be great. However, if you are looking for a bit more extensive work on handwriting you will probably be a little disappointed- as I

was.

wouldn't buy again.this is just too small I know that the other reviews warned of this but I thought I would still give a go. so unless you are traveling during off school days and want some practice I say don't do it.

I got this to help my 7 year old with her handwriting. Its pages are a little thicker than the dollar store books and larger as well. I loved it and would buy again.

was smaller than i had anticipated... disappointed in product compared to price

perfect for my first grader to practice handwriting beyond school

Has helped T so much this summer get ready for Grade 2

Just what we needed for a refresher on handwriting!
