Growing Up & Facts of Life > Family Life > Parents #207 inÂ Books > Children's Books > Early

Learning > Basic Concepts

Age Range: Baby and up

Grade Level: Preschool and up

Customer Reviews

There are new adventures to rhyme your way through with Llama Llama wakey-wake. Anna Dewdney has provided a book intended for a younger audience, but it will fail only in the fact that any age will enjoy reading or hearing this story read, just like the earlier series of Llama Llama books. I assume the wakey-wake volume of Llama Llama's newest tales is the sequel. Hopefully baby llama got to sleep prior to waking. My grandkids love this author's previous rhyming stories, and each family has been given a full set of the Llama Llama tales. They read and re-read, and when they learn to read, the older reading grandchildren are reading them to the younger. It's their favorite books, so says more than one mommy in the family. I purchased the board books to begin Frank, our newest grandson, on Llama Llama even before he's able to sit up by himself. Never too young to hear a rhyming story. Will wakey-wake get him going on the right foot in the morning after hearing nighty-night that put him to sleep? Mama Mama in real life hopes so. Both Llama Llama wakey-wake & Llama Llama nighty-night goes through all the steps to learn to get in and out of bed

through the mama desired correct procedure. So, it is tiny tot educational as well. I'll not spoil the fun and tell you any of the steps, you'll have to buy and read to find out. The pictures are exactly as they are with the older, larger books. Large and colorful characters, and a heavy page book designed to last. I tried opening the first book flat to see how it responded and was pleased to see the construction of the spine causes only a planned binding crease on the back cover, never one on the front. Well unless abused, I guess.
