Customer Reviews

This is a great way to have kids review the basics before taking the state standardized test. The test tips are very helpful and the information and instructions are very easy to follow for self study.

Good condition. Written in but can't beat the price. Our homeschool family is hooked on Harcourt Family Learning. Their test books give an overview to make sure the kids are up to speed with the core knowledge for their grade.

I am a teacher and a mom. We have been using this brand of test prep books every summer for the

past six years. It gives my daughter a boost for when she starts the next grade. Very kid friendly.

I use Flash Kids Test Prep to prepare my students for the standardized state testing. My students really enjoy the challenge and I love the preparation. The best part is that my students are able to gauge the areas in which they need help. Since I replaced the state's prepared materials with Test Prep my students' test scores have improved considerably.

Not my favorite test prep.
