my boys 7,9 and 12, are not strong readers they would rather play than read as i'm sure most kids are LOL... but the Baby mouse series when the book came in the mail it was a fight for the book and

they sat on the couch and read it till the end! Baby mouse goes on some quite crazy adventures and she took my boys with her. I recommend this book as well it got my boys reading!

My daughter (8 years old, 2nd grade) absolutely ADORES these books. Easy to read and she always finds them engaging. She reads well above her reading level so these are not challenge for her at all but they still remain her favorite books to get.

My daughter has struggled with reading and finding something she wants to try to read. She finally found something she enjoys reading with the Babymouse books! My son enjoys reading them too!

This was a good book and it deserves 5 stars because it shows how baby sitting is not easy and in a fun way too.

We always love Babymouse. We want more Babymouse!
