Customer Reviews

Great practice for any child working on their letters. I keep this in my car along with a clip board so my daughter can practice. She also enjoys the "free space" on each page that she can utilize for drawing her own picture on about the letter.

I bought two Alphabet workbooks for my 5 and 7 year old grand kids. They love them. They will practice their alphabet as if they were playing a game. David, my younger one tries competing with his older brother. What makes it interesting is that when they bring their workbooks for me to see, I will praise their progress from when they started using the workbook to now. One thing that I like is the space given on each page for them to draw a picture of something that starts with the letter they are working on. This book is both educational and entertaining. I highly recommend it. Alphabet Workbook: Alphabet Writing Practice (Preschool Workbook for Writing & Drawing)

This is perfect for children's who are learning their ABC, I have an almost 4 yr old and tracing the letters makes it so much easier for her. I love that it had repeated pages of each letter it's great practice, I highly recommend it for children starting to write and associate individual letters.

Really pleasant and simple alphabet book. 2 lines of tracing, two of blank. Longer than most workbooks, so worth the extra couple of dollars.

Thank you so much. I got the book and I love it so much. It will be good for my 3 and 4 years old

Great Pre-K book for learning and having fun with the alphabet...not on the computer!!!

Bought this because it has a lot of sample letters for a young kid to trace.
