Customer Reviews

There are two versions of the book that look almost exactly the same on the outside but their contents are very different:#1) "Psycho-Cybernetics" by Maxwell Maltz, M.D.,F.I.C.S [1960 ISBN 0671700758]#2) "Psycho-Cybernetics" by Maxwell Maltz FOUNDATION & Bobbe Sommer [1993 ISBN 156731306X].Make sure you get the original 1960 written by Maxwell himself. The 1993 "update" is so painful to read because the new author, Bobbe Sommer literally QUOTES Maxwell Maltz repeatedly while trying to add her own insightful messages. For example, on page 3 of her "update", she states: "Whether we realize it or not," Maltz wrote, "each of us carries..."Well, if you just read the original 1960's book, your eyeballs don't waste time on the "Maltz wrote" phrase altogether... duh!...because Maxwell was the one who wrote it!The only reasons to endure Bobbe Sommer's endless "Maltz said....; Maltz learned that...; Maltz studied...; Maltz wrote...; Maltz realized..." is if she added some totally mindblowing ideas OR contradicted his work. In my opinion she didn't.BTW, I was not prejudiced by reading the original first and then reading the 1993 update to see if it was any better; I actually (and unfortunately) read the 1993 book first. I thought the 1960 original was out of print but I accidentally stumbled on the original copy at Border's Books. I read a chapter and realized his true words were so much more inspirational. Not dry and academic like

Bobbe Sommer's version. I think the publisher of the new book was deliberately trying to confuse the public by making the cover look the same as the old one. I think it's borderline unethical...buyer beware!
