Zondervan NIV Exhaustive Concordance

Synopsis

This is the only exhaustive concordance based on the New International Version of the Bible; it gives complete access to every word of the NIV text as well as to the Hebrew, Aramaic, and Greek from which the NIV was translated.

Customer Reviews

Sadly, despite the fact that this is a well-made, (and as the very title indicates) exhaustive concordance of the New International Version of the Bible, this type of resource no longer fulfills its role to the extent that other resources can. For instance: * Websites exist that allow you full access to the NIV version, providing multiple keyword searches that this sort of reference simply cannot provide. Nothing beats a computer for searching for string matches. Cost? Free. * Bible study software exists that fulfills the same keyword searches and can, in many cases, offer multiple translations with keyword searches across all versions. The better Bible software packages include commentaries, multiple translations, links to Strong's concordance, Hebrew and Greek lexical aids, Bible dictionaries, and so on. For the cost of this NIV concordance, you can purchase a decent piece of Bible software that offers more capability than the paper concordance does. Some of the best Bible software is even free. * Text versions of the Bible exist for download online (though I am not certain of the NIV's availability.) When used with a word processor, you can search for words, too (though most word processing software does not allow searches on multiple words at once.) Still, this is another possibility. But if you must have a bound concordance for the NIV, this is it folks.

It has several plusses going for it to counter the format minuses above.* Strong, plasticized, hard cover. Should last for a long time.* Very easy to read sans-serif word heading typeface along with a nice, open serif typeface for the verse listings set on bright white pages. No eyestrain here.* Excellent Strong's Concordance cross-reference.* Detailed Hebrew and Greek dictionary/lexicons.
