Kitten's First Full Moon Board Book

Synopsis

Kevin Henkes's acclaimed national bestseller about a kitten, the moon, and a bowl of milk was awarded the Caldecott Medal and was a New York Times Best Illustrated Book. This sturdy board book edition is perfect for little hands! Kitten's First Full Moon is an acclaimed modern classic, from one of the most celebrated and beloved picture book creators working in the field today. This memorable character and her suspenseful adventure are just right for the very youngest child. It is Kitten's first full moon, and when she sees it she thinks it is a bowl of milk in the sky. And she wants it. Does she get it? Well, no . . . and yes. What a night! A concise story, large type, and luminescent pictures play second fiddle to the true star of this book: a brave young kitten who sets out into the world on a quest that leaves her bruised, bewildered, and hungry, but that ultimately leads her back home, where something special is waiting just for her. This perfectly sized board book edition introduces Kitten to a new generation of the youngest readers. Winner of the Caldecott Medal, an ALA Notable Book, a New York Times Best Illustrated Book, and winner of the Charlotte Zolotow Award. Correlates to the Common Core State Standards in English Language Arts.

I don't know how a person goes about making a black and white picture book appear to shimmer and shine, but somehow or other author Kevin Henkes does it. Having decided to conquer the world of cats as well as the world of mice (if this statement confuses you a single glimpse of "Lily's Purple

Plastic Purse" should explain what I mean), Henkes has shifted his focus squarely on a small hungry kitten. Inviting child audiences to simultaneously pity and scoff (nicely) at its small mistaken heroine, the story is about a feline that tries to capture the moon, but is happy enough in the end with a simple bowl of milk. Kitten, we take it, is not very old. In fact, for the first time ever she's experiencing her first full moon. Apparently no one thought to explain to Kitten exactly what a moon is and since her only frame of reference for a large round white thing is a bowl of milk, that's exactly what she mistakes the moon to be. What follows is a series of mild calamities as Kitten tries time and again to reach that tempting bowl of milk in the sky. Simply sticking her tongue out doesn't work. She gets fireflies stuck there. Leaping at the moon from the house's steps doesn't work. She just bumps her bum. Chasing the moon over hill and dale doesn't work. Kitten can't help but notice that she never gets closer. After other mistakes Kitten, dejected and more than a little soggy, returns home to find an inviting bowl of milk sitting on her home's steps just for her. Says the last line in the book, "Lucky Kitten". The illustrations in this book are, in a word, luminous. Somehow Henkes has taken somewhat bland black and grey gouache and colored pencils and used them to give the impression of a world bathed in shimmering moonlight.
